مديرية اللوازم والعطاءات

الرقم	قائمة اللوازم	المطلوب		المواصفات	السعر الافرا دي	السعر الاجمالي
		الوحدة	الكمية			
1.	ميزان وزن 2 كيلوغرام	جهاز	6	Maximum Weighing Capacity: 2,200 g; Repeatability: 100 mg; Scale Interval: 100 mg; Typical Stabilization Time: ≤ 0.9 s ;Linearity: 100 mg; Adjustment: Internal automatic (isoCAL) ; Anti-Theft Locking Device: Kensington Lock, lockdown capability for cable or chain; Display: LED screen with touch technology. ; - Internal calibration isoCAL, External Calibration; - Password protection for secure operation. ; - Display: Intuitive, wear resistant LED screen with touch technology. ; - Protection class according to IEC 60950-1: II ; - Application Programs: • Weighing • Calculation • Percentage weighing • Statistics • Density • Checkweighing • Dosing • Net total • Animal weighing • Counting • Totalizing • Mass unit conversion Analytical balance int.cal. 220g 0.1mg;		
2.	ميزان وزن 200) غرام (0.0001	جهاز	3	• Weighing Capacity: 220 g. ; - Readability: 0.1 mg. (0.0001g) ; - Repeatability: 0.1 mg (0.0001g) - Linearity: } 0.2 mg (0.0002g) ; - Typical stabilization time: 1.5s; - Weighing Pan Size: 90 mm (stainless steel); - Internal calibration isoCAL,; External Calibration ; - Password protection for secure operation. ; - Display: Intuitive, wear resistant LED screen with touch technology. ; - Protection class according to IEC 60950-1: II ; - Password protection for secure operation ; - Application Programs: • Weighing • Calculation • Percentage weighing ; • Statistics • Density • Check weighing ; • Dosing • Net total • Animal weighing • Counting • Totalizing • Mass unit conversion. ;
